

Flexible steel tube armored optical fiber cables

Features

- Bare fiber, tight-sleeve fiber application protection
- Ensure optical transmission performance and service life of optical fiber in service
- It can be reprocessed into armored fiber
- Enhance fiber property of resisting the shock and lateral pressure
- Rat bite protection

Specifications

Fiber Count	Cable Type	Stainless steel tube diameter	Tight-buffer diameter(mm)	Weight (Kg/KM)	Bend radius		Crush (N/100mm)
					dynamic	static	
1	0.6KJ	$\Phi 0.6 \pm 0.03$	$\Phi 0.25$	1.2	20	10	8000
1	0.6KJ	$\Phi 0.9 \pm 0.05$	$\Phi 0.5$	2.2	50	30	4500
